## MAY COME TO TEXAS.

Captain Dreyfus May Spend the Winter at San Antonio.

## HAS FRIENDS THERE.

It Is Said Mrs. Dreyfus Had Perfected Plans to Come Before the Trial of Her Husband Begun at Rennes.

San Antonio, Sept. 23.—Captain Alfred Dreyfus and wife, accompanied by Madame Bertha Morre, a first cousin of Madame Dreyfus, and Misses Emmy Morre and Lieutenant Max Rance Morre, late of the French army, will spend the winter in San Antonio.

Madame Morre will reside here permanently with her son, Dr. G. H. Morre. She has sold out her large estate in Nance, France, and with her son Max and daughters Emmy and Ida is now preparing to leave France.

Captain Dreyfus and wife will visit them here on the representation of Dr. G. H. Morre and will probably remain here for the winter to recuperate his health.

In a letter to Dr. Morre received here, Madame Morre writes that not less than 20 influential Jewish families are selling their possessions at Nance to come to America.

She says the exodus of Hebrews out of France will be very heavy.

Dr. Morre states that he is under pledge not to divulge his information as to the movements of the Dreyfus family, but when confronted with a statement made by J. H. S. Eteen of Shreveport, La., as detailed above, he admitted that it is probable that Dreyfus and wife will spend the winter in San Antonio.

Eteen, who is of a prominent French family in Rennes, France, which place he left two days before the Dreyfus trial.

He met Madame Morre, who told him of her intended removal to San Antonio and Dreyfus' intended visit. Mr. Eteen's sister is an intimate friend of the Dreyfus family and was told by Madame Dreyfus that the famous prisoner is suffering with malarial consumption.

The Morres and Dreyfus families came from Mulhausen, Alsace. Mrs. Morre's father was a brother of Madame Dreyfus' mother, making the relationship first cousins.

Max Rance Morre was a lieutenant in the French army, but resigned his commission on the degradation of Dreyfus.

The baggage of the Dreyfus and Morre families is checked to New York via Liverpool. The decision of the families to come to America after the trial at Rennes, no matter what the verdict of the courtmartial would be, was reached long before the Rennes trial, according to Mr. Eteen.

### Mme. Dreyfus at Carpentras.

Carpentras, France, Sept. 22.—Mme. Dreyfus has arrived here. A number of visitors have called, but Dreyfus refuses to see any one until he has met his children who are on their way.

### Fell Fourteen Feet.

Fort Worth, Tex., Sept. 23.—Joseph Russum, a carpenter, was badly injured here. He was asleep on the coping of the abutment of the steps leading to the courthouse and fell off, striking the ground a distance of 14 feet. The injured man was removed to the hospital department of the county, where he received immediate medical attention. He has been in a comatose condition ever since he received the injuries about the head, and the attending physician is of the opinion that his skull was fractured. He is a carpenter and well known in Fort Worth.

### Prisoner Escaped Jail.

Tyler, Tex., Sept. 23.—Jim Watkins, who is under indictment, charged with burglarizing a store at Owen, over 15 years ago, escaped jail Wednesday evening. On account of bad health the officers several days ago removed him from the cell and placed him in a room upstairs and while the officers were temporarily away he escaped by picking the lock. Watkins escaped jail here in February with Jim Nite and others and was caught some months later at Honey Grove.

### Murdered to Rob.

Cumberland, Md., Sept. 23.—The residence of Absalom Kessler, a miserly man, aged 80, living on the West Virginia side of the river near Pawpaw, discovered on fire and neighbors Kessler and his hired man, life in the yard. The housekeeper, Donnan, was also murdered, but body was also consumed in the fire. The object of the murder was robbery. The robbers secured about \$200.

### Killed Her Stage Manager.

Chicago, Sept. 23.—Julie Morrice, a lady of the "Mr. Planter of France" comedy company, shot and killed Frank Leiden, stage manager and leading man of the company at the opera house, on the stage, just

before the curtain rose for the performance to begin. Three shots were fired at close range by the woman, all taking effect in Leiden's head.

### Planter and Daughter Killed.

Lewisville, Ark., Sept. 23.—Henry Wheeler, a well to do planter was shot by Tom Sanders, a negro, and Lois, his 4-year-old daughter, was killed in his arms. Sanders was caught and will be lynched unless removed from the county in a few hours.

### ASKS FOR ARTILLERY.

Wheeler Makes a Request, but Otis Says Wait until October.

Manila, Sept. 23.—General Joseph Wheeler, after a skirmish at Parac, telegraphed to General Otis asking the latter to send cavalry for the purpose of preventing a reassembling of the insurgents. General Otis replied that he could not send the cavalry until October.

Three attempts have been made to assassinate Tavera, the leader of pro-Filipinos.

There is a sentiment among military men and the native police that the native judges are unreliable. An inquiry is now proceeding.

Commercial dislocation has resulted in Manila because the goods ordinarily produced here are unobtainable since the provinces have been disturbed. Now, the goods are only obtainable from abroad.

The Filipino newspaper Independencia says insurgent preparations are complete to abandon Tarlac if necessary. Aguinaldo's forces, this organ says, will be able to continue their Fabian tactics successfully, exhausting the American troops more easily than the Romans wore out Hannibal.

No information has been received from the naval expedition at Subig bay. The Filipinos have not made good their offer to surrender the American prisoners, and they have not sent an officer to meet General Otis as promised.

Nothing further has been heard from the rebel officer who conferred with General MacArthur recently and returned to their lines.

### STILL HOPING.

Filipino Peace Envoy Has Not Yet Reached Manila.

Washington, Sept. 23.—No official confirmation has been received of the report that Aguinaldo's envoy has reached Manila and that conferences are in progress between him and General Otis. Such information is hourly expected, however, and the authorities are awaiting it with much interest.

Acting Secretary Allen has received this dispatch from Rear Admiral Watson:

"Panaya, Laning commanding, captured the steamer Mundaca, illicitly trading. Mariveles, Oman commanding, captured steamer Taaleno aiding and abetting insurgents. Taaleno will make a good gunboat of 100 tons. Will fit out and man her."

The Panaya is commanded by Ensign Laning who was previously attached to the Monadnock. Lieutenant Joseph W. Oman was transferred to the Mariveles from the Helena. It is evident from Admiral Watson's dispatch that he is maintaining a sharp watch for filibusters. The fact that efforts are being made to send in such supplies, seem to indicate that the insurgents have no intention of yielding.

### Montana Boys Greeted.

San Francisco, Sept. 23.—Six companies of the First Montana volunteers that arrived here from Manila on the transport Zealandia disembarked and were escorted by the Thirtieth Minnesota to Presidio. The soldiers were given a fitting reception. They were decorated with flags and wreaths and in the barrels of their rifles carried small bouquets of California flowers.

### Iowa Volunteers Sail.

Washington, Sept. 23.—General Otis has cabled the war department that the Senator has sailed from Manila with the Iowa volunteers.

### Postal Rates for Porto Rico.

Washington, Sept. 23.—The postmaster general has issued an order extending the postage rates of the United States to Porto Rico. Under the order United States postage stamps will be valid for postage in each direction, in addition to those now used in Porto Rico.

### Shot from Ambush.

Middlesboro, Ky., Sept. 23.—"General" Sowder, son of Councilman Sowder of Middlesboro, and a noted leader of the Sowder-Turner feud, which raged 10 years ago around Middlesboro, and in which so many men were killed, was shot through the back from ambush near his home. The enemy is believed to be one of the Turners and the feud is likely to be revived.

### May Extend His Trip.

Washington, Sept. 23.—Representative Tawney of Minnesota saw the president here and invited him while on his western trip to make a short stop at Lacrosse, Wis., and Winona, Minn. The visits can be arranged for without too

### Morphine Kills a Druggist.

Hannibal, Mo., Sept. 23.—Walter W. White, of W. W. White & Co., druggist, took an overdose of morphine. Physicians were called and worked with him but he died in great agony. He had been afflicted with asthma, and had been accustomed to take morphine.

### Boy Crushed to Death.

Troy, Mo., Sept. 23.—While dragging ground with a heavy timber the 10-year-old son of William Chandler, living nine miles northwest of here, was caught between the drag and the ground and the life was crushed out of him.

### THE A. AND M. COLLEGE.

The Texas A. and M. College opened last week, with the largest number of students in its history. The new dormitory, provided for by the last Legislature, is well under way, but will not be completed for some time. When this building is thrown open there will be room probably for 500 students, and every room will be occupied. There are additional hundreds of young men in Texas who would attend this school if there was room for them, and the number of these will increase as the character of the institution becomes better known and as the population of the State increases. As it is, these hundreds of ambitious young men have to go out of the State for industrial training, or go without altogether. This ought not to be. It is economical, in a financial sense to educate our boys at home for two reasons: It costs less, and the money is kept at home as well as the boys. These are considerations that seemed to be overlooked by our legislatures. It costs the State less to educate her own young men than to have other States do it, and money expended for this purpose is shrewdly invested—not spent. The last Legislature did well by this institution,

but its needs had been neglected so long by previous Legislatures that it will take several more liberal appropriations to catch up. With ample room, there might have been 600 or 700 young men in attendance this year and 1000 next year. Several States, with smaller populations than Texas, have more than the largest number stated above in their A. and M. Colleges. Thirty States in the Union pay more tax for educational purposes than Texas, therefore the additional taxation that would be required to fully equip the Texas A. and M. College for 1000 students cannot reasonably be urged as an objection. This is the most important educational institution in the state for the great mass of the people; the training is on practical industrial lines. Every graduate, whether in the agricultural or mechanical department, can find remunerative employment, because he knows how to do things. They are now to be found in every section of the State, honoring their alma mater and the commonwealth. May their number vastly increase.—Farm and Ranch.

### SIMPSON DUBBED.

He Is Hooted Down for His Remarks Concerning General Otis.

Wichita Kan., Sept. 23.—Ex-Congressman Jerry Simpson, was hooted off the platform here Friday night while addressing a local Grand Army Republic reunion. Mr. Simpson said:

"I glory in the spunk of Aguinaldo's men. They are simply fighting to regain the land the Catholics took from them. A local paper has asked: 'Whom is John Brown's soul marching with—Otis or Aguinaldo?' I believe John Brown's soul is marching with Aguinaldo."

Mr. Simpson said in substance that he would rather be with Aguinaldo than with General Otis.

An old soldier in the audience arose and said that the speech was drifting into politics. This was applauded and greeted with cries of "throw him out" and "kick him off the platform."

Men and women arose and hissed and the men kept crying "put him out."

Simpson appealed to the crowd to sit down "I am coming to my peroration," he said, although he had been speaking only 15 minutes. Cries came "Take your peroration to Aguinaldo."

Simpson attempted to go on but no one could hear him. The band struck up "The Star Spangled Banner" and Mr. Simpson left the platform. His retirement was greeted with prolonged applause.

## SERIOUS CHARGES.

Cecil Rhodes Says Some Assemblymen Helping Kruger.

London, Sept. 23.—A special dispatch from Cape Town says there was an extraordinary scene in the assembly during the debate on the registrations of the voter's bill. Cecil Rhodes, who has hitherto deprecated the advisability of hostilities, repeated the statement that several members had "accepted money for electioneering purposes from the Transvaal government with which England is now at war." This statement created a great impression. Later, speaking on the same bill, Mr. Rhodes pointedly indicated that some of the members were practically guilty of treason, that they were "supporters of the Ministerial party, who lived entirely on offal, and were nothing more than political scavengers." He called on the premier to hold these in check.

The departure of more officers for the cape and the denial of the Portuguese minister that Great Britain is to take Delagoa bay, are the only developments in the Transvaal situation. The cabinet ministers have left town.

The expectation that the meeting will be followed by a border outbreak so far has been unfulfilled, though news from Johannesburg, tells of unrest that is not assuring.

In spite of the Portuguese minister's denial there is good reason to believe Great Britain has leased Delagoa bay.

The most notable among the officers who have sailed is Major General French, a member of the staff officers, special service officers and war correspondents who accompanied him.

Gordon Highlanders Sail.

Bombay, Sept. 23.—The second battalion of Gordon Highlanders and other detachments of troops have sailed on three transports for Natal.

No Cause for War.

Cape Town, Sept. 23.—The Onsland, Afrikaner organ, commenting on the British cabinet meeting heads the article, "More Demands, More Troops, More Dumdum Bullets." It says there is no cause belli, but the British troops on the border will likely make one and hope the Afrikaners protest will be heeded before it is too late.

At a meeting of 45 progressive members of the assembly resolutions were passed deprecating encouraging the Transvaal and pledging the imperial government the strongest support.

Uneasiness Prevails.

Johannesburg, Sept. 23.—The feeling of uneasiness here has not abated. There was more rowdiness and street barricading proceedings.

FAST BATTLESHIPS.

Three to Be Constructed That Will Be Above Eighteen Knots.

Washington, Sept. 23.—Rear Admiral Melville has in contemplation a suggestion that the three new battleships be given sufficient power and triple screws so that they may attain a maximum speed of 20 knots an hour. Rear Admiral Hichborn, chief constructor, proposes to go Admiral Melville a half a knot better. It is understood that he has in course of preparation a plan for a battleship with twin screws able to make 20 1/2 knots, which will be the fastest ship of her class afloat.

Notwithstanding the propositions which the engineer-in-chief and chief constructor propose to advance, there is reason to believe that the naval board on construction will recommend only that the speed of the battleships be not less than 18 knots. Admiral Hichborn himself admits that considerable space will be required to drive the ships at the speed he proposes, and that more battery and better accommodations for the men can be obtained if the speed be 18 knots.

Other members of the board are in favor of having the ships as fast as any other ships of the type afloat, but they are anxious that the vessels should at the same time be the equal, if not the superior, of other vessels under construction, not only in battery power but in protection.

The money is being raised and the object will doubtless be attained.

## ADMIT THE CHINESE.

Can Remain in the Philippines until Contrary Ruling.

## OTIS SO INSTRUCTED.

General Otis' Order Excluding Them Was Turned Down on a Protest From the Chinese Government.

Washington, Sept. 23.—The Chinese will be allowed to land in the Philippines temporarily pending the adoption of a definite policy by the government. This was decided at the last cabinet meeting after a long discussion in which the views of members of the cabinet who were present were freely expressed.

The matter was brought up by the Chinese minister's recent protest, and by information that a shipload of 600 Chinamen had been stopped by Gen. Otis. After the meeting a cablegram was sent to Otis authorizing him to admit these Chinese temporarily, with the understanding that if it was finally decided to exclude all Chinese they should be sent back to China.

The discussion shows that there is much difference of opinion in the cabinet as to the best policy concerning Chinese immigration to the Philippines. Some take the ground that if the Philippines are to be retained as American territory, the Chinese are not wanted there any more than in the United States, and that if admitted freely they will soon overrun the archipelago.

President McKinley, Secretary Hay and Secretary Root, however, do not want to run counter to the wishes of China at this time, appreciating the desirability of being on good terms with the Chinese government. It is asserted by the Chinese government that the presence of Chinamen in the Philippines at this time, is an advantage to the Americans and some members of the administration are inclined to take this view.

While the president and the cabinet will eventually decide upon a definite policy for the islands under military government, congress must determine whether the Chinese will be allowed to freely enter the archipelago.

### Charged With Extortion.

Marion, Ind., Sept. 23.—Isaac Carter and Joseph Dugar, members of the board of county commissioners, and Frank W. Chase, formerly a member, were arrested here on a charge of extortion. The warrants were issued upon a finding of a true bill by the grand jury, charging them with the offense named. It is charged that the commissioners allowed themselves fees amounting to \$5000 to which they were not entitled. When first accused they denied the charge and asked for an investigation, promising to repay any sums they had taken that did not belong to them. Judge Paulus appointed a committee, which reported against the commissioners, but they have not repaid any of the money it is alleged they took. All are wealthy farmers.

### RAILROAD THROUGH CUBA.

Syndicate Ready to Construct It as Soon as Obstacles Are Removed.

New York, Sept. 23.—General A. G. Greenwood, who has just returned from Cuba, has the following to say of Cuban railroads:

"Within a very short time the construction of a railroad will probably be begun which will make every point of importance of Cuba easy of access. We have the right of way and have the concessions and best of all, we have the money.

"It is our purpose to have a main line through the island, and to do this we must build a road from Santa Clara to Santiago de Cuba, a distance of about 400 miles. Then we will build branches to the main line from every port on the north and south side of the island. This means the building of more than 850 miles of road, at a cost of at least \$25,000,000.

"London and Boston capitalists have financed the undertaking. The surveys have been made, and all that is necessary to permit of the commencement of the work of construction, is the repeal of the Foraker resolution. This, we have every reason to believe, will be repealed in the early day of the coming session. We shall rush the work and give Cuba a railroad system that will prove of incalculable benefit in the development of her many resources.

"The Cuban bond question? That is a serious affair, and is very liable to involve Spain into another war. There are more than \$500,000,000 worth of bonds and they were issued by the Spanish government. A few millions are held by wealthy Cubans, but the very large bulk of them are owned by Frenchmen and Germans. England has none of them.

"The United States is in no way responsible for them, and has disavowed all responsibility. So, too, have the Cubans. It is clearly an obligation that Spain must discharge. If she don't do it France and Germany may seek to compel her to do so."

### More Trouble Ahead.

Paris, Sept. 23.—The proclamation of Minister of War de Gallifet to the army declaring the Dreyfus incident closed, has excited keen opposition among the Dreyfusards the Radicals and the Socialists. It is rumored an attempt will be made to oust the minister from the cabinet. It is said he issued the proclamation without consulting his fellow ministers.

De Gallifet is credited with saying: "They want to get rid of me. I am quite prepared to go, but I don't mean to go alone. Either all of them will disappear with me or I stop where I am."

### A Mad Cow.

Marietta, O., Sept. 23.—David Shiltz started home with a cow tied to the rear of his express wagon. The cow became infuriated and charged on the vehicle, throwing out the occupants. Mr. and Mrs. Shiltz were both badly bruised and a 7-year-old boy who was riding with them had a hole crushed in the top of his head as large as a half dollar. The pieces of bones were removed from his brain and he will recover.
